Canadian Energy Mission to Frankfurt, Germany

November 29th - December 1st, 2022
Enlit Europe Conference & Trade Show

Activity:

Through funding support, the Smart Grid Innovation Network Canada Inc. (SGIN) has collaborated with Alberta, Ontario, New Brunswick, Nova Scotia, Prince Edward Island, and Newfoundland and Labrador to lead a mission of 10-15 Atlantic Canadian companies and energy sector stakeholders to explore business opportunities in the renewable energy systems sector in European markets by participating in Enlit Europe Conference and Trade Show held in Frankfurt Germany on November 29th – December 1st, 2022.

This is a unique opportunity for a select group of companies to showcase their capabilities and solutions to an international audience made up of key decision- makers and professionals. In conjunction with the Enlit Europe Conference and Trade Show, participants will also be able to take part in one site visit with the potential of an additional site visit to either Norway or Switzerland. The additional site visit is dependent on availability, travel restrictions and interest from the SGIN group attendees.

What is ENLIT?

From source to generation, from grid to consumer, the boundaries of the sector are blurring and this evolution is being shaped by established players, external disruptors, innovative start-ups and the increasingly engaged end-user. Enlit brings all of these people together to seize current opportunities, spotlight future ones, and inspire the next generation to be part of moving the energy transition forward. And so, the Enlit circle begins: a constantly growing, inclusive and end-to-end forum that addresses every aspect of Europe's energy transition.

Sectors and Clients Targeted:

Companies providing technologies and solutions for the energy systems of the future, driven by decarbonisation and energy efficiency: smart energy; smart transport; smart city; smart communities; AI; IoT; Internet of Energy; Big Data; teleservice; monitoring; automation; production and transportation of power; energy performance solutions; energy storage; batteries; decentralized generation assets, renewable energy.

Goals:

The mission aims to showcase the expertise and capabilities of Canadian companies and organizations to increase and accelerate the development of international business opportunities. The mission offers a unique opportunity to meet top-level European energy professionals, form new relationships to conduct business, and to drive new projects forward.

The 2022, the Enlit Europe Conference & Trade Show Program includes the following mission features:

- In-market country and trade mission briefings.
- Full-day energy conferences in Frankfurt, Germany
- The opportunity for Canadian companies to showcase their technology to an international audience made up of key decision-makers and professionals.
- Access to exhibition floor and space for meetings.
- In-market Trade Commissioners in Europe that will provide you with direct assistance, promote company material and connect your company to qualified industry players.
- Organization of pre-event webinars, sales-pitch and B2B session with major European buyers.
- Social media campaign prior to and during the event.
- Business networking events.
- Access to other Canadian exhibitors.

Mission Schedule:

Date	Activity	Location

- Company/Personal insurance.
- Transfer costs to and from airports.
- Transfer cost to and from fairgrounds (ENLIT Europe Conference & Trade Show will take place at Frankfurt Messe <https://www.enlit-europe.com/visiting/venue>).

B2B Program:

The B2B Program will consist of identifying potential clients, pre-qualifying them and organizing three (3) one-on-one meetings per entity participating in this program (a maximum of 15 entities will be invited to participate in the business-to-business meetings program, however the final total number of companies will not be determined until late November 2022).

Participants in the Energy Export Business Mission to Enlit Europe will consist of representatives from companies in the energy sector including vendors who sell to utilities or each other, Utilities, Ports and Communities who themselves provide value add services leveraging Smart Energy vendor offerings. Participants also include entities looking for partner opportunities.

Why should your organization attend Enlit Europe with SGIN?

- In-market SGIN networking reception during the Enlit Europe Trade Show & Conference.
- SGIN will coordinate group travel between SGIN events.
- Monthly Information Webinars with Q&A's leading up to the event.
- Additional Site Visit to either Norway or Switzerland.
- Pre trade show sales-pitch organized with major European Buyers.
- Opportunity to join up to 15 companies from Atlantic Canada.
- Discounted Booth and Summit fees.
