PACKAGE**

Why Should You Partner?

JOIN US IN BANFF AS WE ENABLE CANADA'S TRANSITION TO A **CLEAN ENERGY FUTURE.**

- **100** of Canada's innovative smart energy experts
- **10** complex electricity sector challenges to solve
- **1** day of dynamic workshop sessions
- October 3rd 2024 - Banff, Alberta

Why should you partner with the Energy Innovation Forum Canada?

In collaboration with smart energy stakeholders EIF brings together experts to accelerate not just Alberta's but also Canada's low-carbon energy future. Our multi-sectoral delegates from across Canada include leading utilities, vendors, regulators, communities, academia, and provincial and federal, representing all facets of the smart energy industry under one roof.

This year's Forum is bringing together high profile thought leaders from across the nation to advance progress from engaged discussions to co-ordinated and collaborative actions. To accelerate the pace of change we need to be to be creative, innovative, and collaborative in implementing solutions to our climate change crisis, and we need stakeholders like you in the smart energy sector to help make that vision a reality.

As one of Canada's energy leaders, we invite you to join us as an EIF 2024 conference partner in Banff. Together, we will meet the challenges ahead and advance our clean energy future.
